### Jacqueline M. Champlain, MD

Family Medicine

*"I chose a career in medicine because I wanted to combine my love of science with direct patient care, patient education, and have a relationship with each and every one of my patients. Being a family doctor is so incredibly special, and it is an honor to be part of the lives of my patients and families. I like to work as a partner with my patients in their health, and collaborate with them to live healthier, happier, longer lives."*
